

22. The Secret Life of Trees

Respond to the following questions as you explore the secret life of trees.

1. What are the three functions of roots?
2. How do roots support trees?
3. Draw and label a diagram of the different parts of a trunk:

4. Which type of tree is stronger and why: one with heartwood or one without?

5. What is a leaf scar?

Additional Notes:

Homework Assignment:

Draw a web of the different things you learned about the secret life of trees. Use your notes to help you. You may explore the secret life of trees again by accessing the link through the class website.
