

### 7. Levels of the Forest Diagram

Name: \_\_\_\_\_

Date: \_\_\_\_\_

#### Levels of the Forest

In a forest ecosystem, there are several levels of vegetation. Different plants and animals live at each level. Label the 4 levels of this forest and name one plant and one animal that live at each level.

Level \_\_\_\_\_  
plant \_\_\_\_\_  
animal \_\_\_\_\_

Level \_\_\_\_\_  
plant \_\_\_\_\_

animal \_\_\_\_\_

Level \_\_\_\_\_  
plant \_\_\_\_\_  
animal \_\_\_\_\_

I named each level and listed at least 3 different plants and 3 different animals that could be found at each level. I also described how much light passes through each level and what the temperature is.
